PITT'S PATENT SELF-ADJUSTING DOOR KNOBS AND LOCK SPINDLES.

HART and SONS beg to invite the attention of architects, builders, and others, to their Door Furniture, mounted for PITT'S PATENTED SPINDLES. The knobs are stronger, more durable, and more elegant in form than those in ordinary use, as the spindles being loose do not require the objectionable side screws. They are more readily fixed, are suitable for every description of lock now in use, and as they adjust themselves to doors of different thicknesses, without alteration, are particularly adapted for the country or for exportation.

In addition to an extensive stock of door furniture in china, crystal, amber, [illegible] glass, buffalo horn, ivory, ebony, brass, &c., en suite, with finger-plates, bell-pulls and levers, new patterns of ornamental design are constantly being added, and any order either to sketch or pattern supplied very promptly. A simple one, for example, in three days, and a more elaborate one in less than a week. May be obtained through any ironmonger, or direct from the proprietors and sole manufacturers, HART and SONS, Wholesale Ironmongers, 53, 54, 55, Wych-street, Strand, London.

TESTIMONIAL.

From Charles Barry, Esq., [illegible]

32, Great George-street, Westminster, London, Oct. [illegible], 1849.

Mr. Nathan Gough.

Sir,—I have, for Mr. Barry, the pleasure of replying to your request of the 4th inst., for a testimonial of the working of three steam-engines you have supplied to the New Houses of Parliament at Westminster, by saying that they have fully answered the purposes for which they were required, viz. hoisting the building materials; and two of the three have been at work for some years with very little repairs, and with considerable economy of fuel.—I am, Sir, your obedient servant,

Per pro. CHARLES BARRY,
ALFRED MEESON.

REVOLVING SAFETY WOOD and IRON SHUTTERS.—BUNNELL, Patentee, [illegible], Regent-street, and at the Steam-works, [illegible]. These shutters have fully borne out their superiority over other revolving shutters for security, durability, and simplicity. References can be given to noblemen whose mansions are fixed herewith, and numerous large establishments, where some are fixed measuring upwards of [illegible] square feet in one shutter, and which are opened and closed in a few moments with the greatest possible ease, without the use of machinery. The Patentee manufactures Brass Sash Bars, Stall Board Plates, &c.

MESSRS. C. AND CO. DID NOT EXHIBIT AT THE GREAT EXHIBITION.

PRIZE MEDAL IRON SHUTTER.

BUNNETT AND CO., ENGINEERS,

ORIGINAL PATENTEES OF REVOLVING IRON SHUTTERS,

Respectfully recommend their

NEW PATENT CURVILINEAR REVOLVING IRON SHUTTER,

For which the PRIZE MEDAL of the GREAT EXHIBITION has been awarded.

This Shutter is far superior in STRENGTH, DURABILITY and APPEARANCE to the CONVEX or any other Revolving Iron Shutter. The adoption of the terms of Bunnett and Co.'s advertisements, and the imitation of their various works, without regard to quality, has given rise to much annoyance, and tended in some degree to bring such works into disrepute, many persons not being aware that there are other makers.

Bunnett and Co. have therefore made such improvements and additions to their extensive plant of machinery as will enable them successfully to compete with the lowest prices of other makers, without impairing the well-known quality of their own works, and they earnestly solicit a comparison of their New Patent Revolving Iron Shutters with any others, which will at once prove them to be the best and very much the cheapest in the end, and a saving of great and constant annoyance by their not getting out of order.
